### **Seasoned To Sustain**

Established in 2017, **FIDES Modular Fabrication & Assembly LLC** is the flagship

Company of FIDES Group a home grown conglomerate that has grown Parallel to the spectacular Growth of the UAE. FIDES Group started its Engineering services in 2016 Dubai, United Arab Emirates dealing with Industrial fabrication, maintenance & machinery assembly, Installation, testing & commissioning within a short Span the group has expanded and diversified into the high growth industries Oil & Gas, Power, chemical, Cement, Sugar, Feed mills. The group currently Have over 120 skilled employees of different nationalities.

**FIDES Engineering Pvt. Ltd.** Is the latest addition to

The group's existing business portfolio, spearhead by Mr. Muhammad Ajmal Noman.

The owner of the FIDES Group and has been involved in expanding the Group's Operations since 2016.

## **FIDES GROUP INTRODUCTION: -**

FIDES Group is a leading and economically efficient, committed organization vying to fulfil the requirement of industry.

FIDES Group was established in 2017 and has achieved many milestones in service industry and regrouped to deploy its forces to implement and follow strictly quality system which has made FIDES outstanding company as roll model for other competitor's Continuous improvement & diversified activities today **FIDES** stands all among others to have many divisions in its fold to cater the requirement FIDES is devoted to provide the higher level of dedication to satisfy its customers.

In delivering value to their engineering operations. Its aim to fulfil this desire by maintaining superlative quality across all its services and solidifying the philosophy of a customer-focused mindset. FIDES has proven its competence in diverse and challenging assignments by providing truly world class engineering solutions, ensuring quality and workmanship of the services offered and commitment to the schedule.

Fides is backed by the team of Professionals comprising of engineers, Technicians, planners and financial experts ensuring all the projects undertaken are Completed to the exacting global standards on-time every time.

### **THE POWER WITHIN FACILITIES: -**

With a state of the art manufacturing facility the utilizes, latest equipment and technologies and covering an area of more than 11000 sq.ft.

FIDES aim to be a leading global process system provider for Oil, Gas, Petrochemicals, industries, & energy sectors.

All of this will be made possible with round-the-clock support of a team of hand- picked engineers, skilled workforce, and administrative staff of different nationalities once in its full potential. We give complete solution for all the below activities.

- **Designing,**
- **Procurement,**
- **Fabrication,**
- **Structural & Piping as well as stainless steel fabrication,**
- **Piping spool fabrication & erection**
- **Electrical & instrumentation**
- **Supervision of Projects**
- **Blasting & painting**
- **Silos Erection & Installation**
- **Steel Structure Erection**

FIDES Group has outperformed several goals within short span of time backed by complete infrastructural facilities, acquiring latest technology & knows how, quality consistency & highest standard of safety, health and environment.

### **Engineering Design:-**

Engineering Design is a process that consists of a series of continuing steps that leads to a complete solution to a problem. The solution may involve designing a product or a whole project to accomplish a certain task.

Our professional designing engineers prepare the most cost- effective design based on client specific job requirements and applicable codes. We undertake special designs like finite element analysis for special process requirements. FIDES expertise on engineering services and with our international experience, we provide best solutions at the right cost. We also specialize in Structural Erection and extreme service conditions of highly sour services and all other sever /lethal service.

Our technical department is equipped with world renowned software's like Auto-CAD, Process Design, etc,

Armed with a team of highly skilled engineers, a dynamic work force backed be necessary equipment and tools, we are geared to offer turnkey project execution.

### **Structural Steel: -**

Structural steel work is an integral part of most civil industrial, marine and offshore projects. With our own design engineering, fabrication, installation and quality control teams, we provide total solutions in structural steel requirements. We achieve this through our highly experienced engineers, multi-skilled workforce and state-of-the art machinery. FIDES is totally committed to provide Quality services and products in accordance with the international codes and standards of AISC, AWS, and EN and many other codes and standards Which would be specified be the client. Also FIDES has advanced equipment necessary to satisfy a wide includes Pipe Spools, Pipe line Racks and many more. Our welding system uses the latest micro-controller and electronic technology to assist FIDES skilled craftsmen in producing high quality welds in accordance to the international codes & standards of ASME and API.

### **SKID AND PIPING PACKAGES: -**

Our Advanced workshop infrastructure is complete with sufficient floor space and lifting capacity. The crane enables us to serve our customers with a wider scope. i.e. skid mounted units built within our facilities in a dry and clean environment. In line with the above services, we are capable of manufacturing skid frames, install vessels, pumps, process equipment, valves, instrumentation (E&I). perform electrical installations, install insulation, fireproof and paint to exacting international standards.

FIDES Group undertakes turnkey pipe work system design and installation services to diverse industrial applications. Pipe work system for high pressure pipelines cooling water hydraulic control systems, fire fighting systems, Etc are offered in wide range of specialist materials including ferrous and non-Ferrous tubing.

### **Desalination Plants: -**

In order to ensure uninterrupted and successful operation of desalination plants. Fides Group offers a flexible and diversified approach. We have the expertise, equipment and skilled manpower to design, fabricate and assemble plants of different capacities at site. We can also pre-assemble plants

In modular form with a range of process equipment such as gas fired heaters, furnaces and evaporators in all types of materials.

## HVAC

Installation of new air conditioning units also experienced in installing HVAC system ranging from 1TR to 300TR in different industries. Air cooled and sea water cooled systems can be installed and commissioned with available references to our quality of work.

## Ship Building, Repair and Maintenance

Key turn jobs in electrical wiring like:-

- Ship wiring
- Panel Fitting
- Cable laying
- Cable tray laying
- Bilge Panel for ships
- Alarm panel for ships
- Navigation Panel for ships
- Connections of generator to distribution board

## Switchgear Manufacturing

- Control Panel
- Starter panel
- Synchronizations panel
- Navigation panel
- Bilge panel
- All kinds of generator controls and distributor panels

## Rewinding and Balancing

- Rewinding of all types sized of A/C, D/C motors, generator and stators.
- Motor rewinding with F class.
- Motor rewinding up to 500KW
- Varnish and Baking facilities
- Balancing of rotors and impellers up to 2.5 tons
- Pump overhauling

**ZABEEL FEED MILL:-**

**PROJECTS:-**

- Assembly & Erection of Feed Silos at Zabeel feed mill
- Assembly & Erection of flat bottom silos with walkways & structures.
- Assembly & Erection of big hopper silos with walk ways & structure
- Installation of heavy equipment
- Cable laying and connecting with the equipment.
- Assembly & Erection of Small hopper silos with walkways.
- Assembly & Erection of chain conveyors for feed silos.

### ZABEEL FEED MILL PROJECT

Zabeel Feed Mill Silo Erection

## CEMENT INDUSTRY PROJECTS

### Pioneer Cement Factory Ras Al Khaimah:-

- INSTALALTION OF DUCTS AS PER GIVEN DRAWINGS FOR WHRB DIA. 3.3Mtr & 2.3Mtr AT PIONEER CEMENT AL GHAIL,

شركة أسمنت الاتحاد (ش.م.ع.)  
UNION CEMENT COMPANY (P.S.C.)

**Union Cement Company:-**

- Dismantling & Re-Erection of New PH Fan (2Nos) with Inlet & outlet Duct.
  - Master level of impeller shafts both sides for both fans.
  - Radial & axial alignment of motor & fan shafts.
  - Filed joint welding done at position for fans inlet & outlet duct parts.
- Replacement of Pre heater Feed bucket elevator belt with buckets.
- Raw Mill silo elevator belt replacement with buckets.

**Discovery Garden:-**

- Fabrication & Installation of BTU Assembly Kits In Discovery Garden in various Buildings,

**IFFCO (Emirates Refining Co LTD):-**

- All Type of Conveyor repairing In Floor Mill.
- Overhauling, replacement of bearings of Screw Conveyor.
- Manufacturing & supply of Screw Conveyors
- Manufacturing, Supply & Installation of Platforms with stairs .

## On-Going Projects

### IFFCO (Emirates Refining Co LTD) Sharjah Hamriyah.

➤ Silos Erection 5nos

- Assembly & Erection of Grain Storage Silos, chain Conveyors & cat walks, Platforms Supports.
- Supply, Fabrication (40Ton approx.) & Installation of Steel Structure for Hamriyah Silos Expansion project.

AMANDUS KAHL GmbH & Co. KG · Postfach 12 40 · D-21452 Reinbek

Date: 26 November 2018

### **Letter of Appreciation**

This letter is issued in appreciation of the efforts shown by **FIDES MODULAR FABRICATION & ASSEMBLY LLC** team for their professionalism at our **Project 89571 Zabeel Feed Mill** (Assembly & Installation of Silos, Heavy Machinery, Chain Conveyors, Buckets Elevator, Boiler, Steam, Condensate, Oil & Liquid Piping & Electrical work at Zabeel Feed Mill) the work has been carried out in a timely and efficient manner, meeting all Safety, technical specifications & standards required.

I personally on behalf of **AMANDUS KAHL** wish them best of luck in their future projects & will recommend **FIDES MODULAR FABRICATION & ASSEMBLY LLC** as & when required.

Yours faithfully,  
**Amandus Kahl GmbH & Co. KG**
